CONSOLIDATED REPORT ON PAYMENTS MADE TO PUBLIC ADMINISTRATION

1. Basis for preparation and scope of the Report on payments made to public administration

Legal requirements

The consolidated Report on payments made to public administration (the "Report") was prepared in accordance with the requirements of the amended Act of 29 September 1994 on accounting (i.e. the Polish Journal of Laws of 2018, item 395) as a result of the implementation in the Polish law of the Directive 2013/34/EU of the European Parliament and of the Council of 26 June 2013 on the annual financial statements, consolidated accounts and related reports of certain types of entities.

Pursuant to these regulations, entities operating in the extractive industry or logging primary forests, provided that they meet the criteria specified in the Act, prepare, as at the balance sheet date, together with the annual consolidated financial statements, a consolidated statement of payments to public administration. The Act defines that an entity operating in the mining industry is understood as an entity that conducts activities consisting in exploration, search, discovery, exploitation and extraction of deposits of minerals, oil, natural gas or other raw materials, as part of the types of economic activity listed in section B in sections 05–08 of the Polish Classification of Activities.

Reporting unit

According to the provisions of the above Act and Regulation, this consolidated report on payments made to public administration was prepared by the parent company in the Capital Group, i.e. Stalprodukt S.A. and includes payments to public administration made by a subsidiary (ZGH "Bolesław" S.A.) and its subsidiaries. The Report does not include payments to public administration made by joint ventures valued in the consolidated financial statements of ZGH "Bolesław" S.A. using the equity method.

Activities covered by the reporting obligation

Payments made by the entities of the Stalprodukt S.A. Capital Group to public administration, as shown in this Report, relate to mining operations involving the exploration, search, discovery, exploitation and extraction of metals, rocks and sand. If a given payment relates both to activities covered by the reporting obligation and to other activities (e.g. steel activities), the amount disclosed in the Report is not divided, but disclosed in full.

Public administration

Public administration means government or self-government administration bodies and entities supervised or controlled by these bodies, and in the case of other countries of the European Economic Area or countries outside the European Economic Area – state administration, regional or local authorities and entities supervised or controlled by these bodies.

If several such agreements are significantly related to each other, the operational activities carried out on their basis are considered as one project.

In 2021, there were no payments for public administration in this respect.
- c) Concession fees and bonuses for discovery and production
